

## USPS VALUE-ADDED PARTNERSHIP (VAP)

### Switch to USPS and Utilize iDrive's Preferred Carrier Pricing

Choosing the right carrier takes careful analysis. With many moving parts and varying shipping characteristics, what made sense last year might not make sense today. iDrive sorts through this for you to make sure you are optimizing your shipping practices and using the right carriers. We have saved our customers thousands by simply switching them to USPS and utilizing our preferred pricing.

Due to our shipping volume, iDrive is a top-5 USPS partner and provides some of the lowest USPS rates in the country. By leveraging millions of packages annually, we can extend our preferred pricing to you (upon qualification), regardless of your size and shipping volume.

**Does USPS make sense for you? Call iDrive and find out today!**

## Features of our USPS VAP Program

- Lowest USPS rates
- Rates are unaffected by your volume fluctuation
- You don't pay us a dime—our fees are already built into the rates
- USPS Tracking
- Delivery in 1-3 business days along with Saturday deliveries
- Complimentary insurance—up to \$100—on each package
- Savings available for all sizes of companies

## The iDrive Difference

### Superior Rates

Best possible rates because of our 30+ million square feet of warehouse space and daily shipping volume.

### Keep Existing Shipping Systems

No need to change your current shipping technology or processes. It's simply an update of your account number.

### Service Leverage

Our footprint and size provide clients with greater response and attention from carriers.
